**NOTICE TO DISTRIBUTORS OF BLUEBIRD BRANDED CONTENT**

**To whom it may concern**

In September 2009 a wholly owned subsidiary of Private Media Group, Inc., Fraserside Holdings Ltd., (collectively "Private Media") entered into an exclusive distribution agreement with Bluebird America Inc. ("Bluebird").

Under the terms of this agreement memorialized by the attached press release, Private Media was appointed by Bluebird as the global exclusive distributor of all of Bluebird's then existing library, which we attach for your reference, and all future releases for a period of five years. This global distribution agreement included all platforms and forms of distribution including, but not limited to, DVD, internet, broadcast, IPTV, and mobile rights. This agreement also included the exclusive rights for Private to distribute Bluebird content online on a B2C basis.

Pursuant to a breach of this agreement, Private sought to enforce its rights. On September 4<sup>th</sup>, 2012 the attached final judgment was granted in favor of Private. This judgment grants Private certain monetary damages against Bluebird but, more significantly to you, reinstates Private's 2009 exclusive distribution agreement retroactively.

As such we are hereby giving you notice that while distribution may continue until further notice by us, that all payments, in money or kind, for any Bluebird branded content to Bluebird or its affiliates must cease effective immediately. Failure to comply with this notice will constitute breach of our rights.

As has been widely reported in the press, Private's senior management, with the support of its shareholders, have a documented history of pursuing parties globally who fail to honor contractual agreements or use Private's own and licensed content without permission.

Nevertheless, Private understands that there are parties who have, in good faith, distributed Bluebird content and have paid Bluebird or its affiliates for such product or rights. We are not looking for retroactive compensation for these payments as this would be unfair and unreasonable. Indeed, please understand that it is our intention, wherever possible, to honor the terms of existing agreement between Bluebird, its affiliates, and distributors.

We need, however, to insist that, as of this notice, all fees for licenses or goods relating to Bluebird branded content or the back catalogue, either accrue for Private's sole account

subject to confirmation of your position by us, or be directed solely to Private as both recovery under our judgement and as the exclusive distributor for this brand.

To avoid any confusion as to your intent, if you distribute or process payments from the distribution of Bluebird branded content anywhere in the world you must contact the undersigned's office at the address below within 10 business days.

Please note that as certain limited rights in select territories are not subject to our exclusive agreement, we will also be able to ascertain through such contact, whether some or all of your distribution of Bluebird branded content falls into these categories.

We look forward to working with you again and representing Bluebird in the market as their exclusive distributor.

Yours sincerely,

James Moran

## **BLUEBIRD FILMS SELECTS PRIVATE MEDIA GROUP FOR EXCLUSIVE GLOBAL MULTI-CHANNEL CONTENT DISTRIBUTION.**

Published on 13 Oct, 2009

Private Media Group, Inc.(NASDAQ: PRVT) a worldwide leader in premium-quality adult entertainment products today announced its partnership with adult movie production company Bluebird Films for the exclusive management of Bluebird's content distribution worldwide, via all media channels, using Private's global content distribution network.

Following Private's announcement that it would open its distribution network to a select group of American and European high quality studios, this partnership is to date the most substantial in a series of deals to manage other studios' content. The collaboration reaffirms Private's position as the most comprehensive global content distributor in the adult space. No other company has access to such a broad array of channels and the capabilities to effectively distribute through them. Under the terms of a five year agreement, Private is in charge of bringing Bluebird's content to market across its distribution network, a set of leading platform operators which has invited the company to fill additional shelf space in its new role as an aggregator. The current distribution network includes broadcasting (Sat-TV, Cable, IPTV, DTT, etc.), mobile, Internet e-commerce, DVD and Blu-ray platforms. With respect to IPTV and mobile distribution, the network represents 38 major platforms in 24 countries and 1.2 billion mobile phone users via 104 mobile operators in 45 countries.

*"Bluebird has the catalog we have been seeking, yet the studio has not gained the traction it deserves," noted Private CEO, Ilan Bunimovitz. "With our access to global markets, we can rapidly catapult Bluebird to international success. They have the content and we have the market reach, and the ability to manage it across multiple channels globally. It is an elegant match where Private satisfies increased demand on all platforms while Bluebird gains unparalleled global distribution. Going forward, we expect this arrangement to have a significant impact on our bottom line."*

With a newly produced catalog of unreleased quality adult movies in excess of 175 titles, a production schedule of 10 movies per month and an extensive library of HD content, Bluebird Films was highly sought-after by major distributors.

*"When you've invested over \$14M to develop your catalog, you take a good hard look before you partner with anyone to distribute it," said Bluebird Films CEO, Nicholas Steele. "There was simply no one with the combination of services Private offers: they have a proven track record on brand management, they understand the emerging channels across the world, they fathom the particularities of producing content for a global audience, and, with Gamelink, they are leaders in online distribution. Initially, our intention was to carry out the distribution on our own, but when we saw that Private has a suite of top-notch services and its global distribution network ready to go, time to market, quality and reach were the deciding factors for us."*
